Dear Sir:

In accordance with 37 C.F.R. §§ 1.56, 1.97, 1.98 and MPEP § 609, applicant(s) submit(s) the following Disclosure Statement concerning art of which the applicant(s) is (are) aware. A copy of PTO/SB/08 Form (renumbered from 1449) is enclosed.

This Information Disclosure Statement should not be construed to be an admission that any information referred to herein or submitted herewith is "prior art" or is considered to be material to patentability for this invention.

The United States Patent and Trademark Office OG Notice dated 12 October 2004 published a final rule revising 37 C.F.R. 1.98 dealing with the content of Disclosure Statements. Paragraph (a)(2) was revised to read in part, "A legible copy of:
(i) Each foreign patent; (ii) Each publication or that portion which caused it to be listed,

other than U.S. patents and U.S. patent application publications unless required by the Office.” Therefore, Applicant(s) has (have) not enclosed copies of the cited U.S. patents and published patent applications with this Information Disclosure Statement.

In accordance with 37 C.F.R. §1.97(g) and (h), the filing of this Information Disclosure Statement should not be construed to mean that a search has been made or that no other material information as defined in 37 C.F.R. §1.56(b) exists.

☒ Under § 1.98(a)(3), a concise explanation of relevance is required for information that is not in the English language. Accordingly, the English language documents have no further explanation.

☒ All of the cited and/or included documents were cited by the German Patent Office in a related application(s). A copy of the German Search Report is enclosed.

The German Search Report lists Document No. DE 196 54 210 C2, document AM herein. This document is the equivalent of U.S. Patent No. 6,211,988 which is listed in form PTO 1449 as document AI.

The German Search Report also lists Document No. DE 199 28 998 A1. This German language document, listed as document AN herein, has an English language equivalent in U.S. Patent No. 6,850,121 which is listed as document AJ in the enclosed PTO 1449 form.

The German Search Report lists DE 96 21 457 U1. However, the file number provided by the German Patent Office is incorrect. There appears to be no such document available in the database to which the undersigned has access. Therefore, no copy of this is enclosed and no information concerning an English translation is provided.

The Search Report from the German Patent Office also lists DE 197 41 731. An English machine translation of this document is enclosed.

Finally, the Search Report from the German Patent Office lists DE 33 18 968 A1, document AK herein. There is an English language equivalent of this document, namely, UK 2 120 804. A copy of that document is enclosed and listed as document AO on form PTO 1449.

Consideration of the appropriate paragraph(s) indicated below is respectfully requested:
